MAKING A DIFFERENCE

Since the introduction of safety cameras in Kent and Medway, the number of people killed or seriously injured at camera sites has been reduced by 63%.

The Kent & Medway Safety Camera Partnership was formed in July 2002 and is committed to influencing, educating and encouraging motorists on the roads in Kent and Medway to slow down, stay within the speed limits and help reduce the number of speed-related crashes and casualties through the combination of education, publicity and enforcement.

Safety cameras are just one tool being used in the overall drive to reduce crashes and casualties on the county's roads.
